

# Charlotte County Government

"To exceed expectations in the delivery of public services."

[www.CharlotteCountyFL.gov](http://www.CharlotteCountyFL.gov)

October 26, 2015

Dear Property Owner:

As you are aware, Charlotte County Utilities is researching the opportunity to offer potable drinking water, sewer, and reclaimed water services to areas along US 41, which is being expanded to six lanes north of Enterprise Drive. We have hosted meetings, sent surveys and are meeting with individuals to learn more about your opinions and interest.

To hear more from property owners who will benefit from this project, we have pushed back our timeline to present our findings to the Charlotte County Board of Commissioners (BCC) to early 2016. We are also researching additional cost savings to the property owners who will benefit from this project and to ensure our rate methodology is fair, equitable and simple to understand. We will be revising our cost projections and will share our new revised numbers when we have them. We are confident we can identify more affordable options that will benefit you and your property.

If we have not met with you, we will be reaching out to you. If you would like to fill out a survey or learn more about this project, please contact our office at 941.764.4300, ext. 3 or by e-mail at [administrative.assistants@charlottecountyfl.gov](mailto:administrative.assistants@charlottecountyfl.gov). We look forward to keeping you informed about this project.

Sincerely,

Bruce R Bullert, P.E.  
Engineering Services Manager
